Factors Bringing In Blockage

The major planets influencing our job and career are

- **Sun,**
- **Mars,**
- **Mercury and**
- **Jupiter.**

Any imbalance in the Energies Of These Planets can create obstructions in your jobs.
Problems in numerology

Numerology is our support system. If there is a non harmonius support system, our entire life will have trouble such as politics in office, getting fired frequently, salary not sufficient or not getting promotion.

Karmic Deficit

Our karma of past life and this life creates a lot of resistance. This can be identified from your palms. .

Yog Of Govt Jobs

Every one can get a govt job. For lucky few, it happens naturally. For rest of us, we can achieve same results by remedies.

For Govt Jobs, Sun, Saturn & Jupiter has to be baught in a special balance. Once This is achieved, you will have 110% chance of govt job.

These are the two tricks I used to get my first job

1) I offered to work for a small company for free for 3 months. It helped me gain experience. Plus I worked so hard that the owner offerd me salary from the 1st month, the vendors working with that company wanted me to join them. Let your work do the talk. Dont be like the crowd.
2) After my above experience, I went on to social media and started posting content and about my expertise as an mechanical enigineer and what value I offer. I then ran a Rs 1000 ad targetting HRs and senior managers of big companies like L&T etc. Within 1 week I had 6 job offers without even applying .This system was made by Eklavyya for me. I have asked him to help you out for free.

I left my job soon after because i wanted to do my own business. Currently I run a manufacturing unit in Kolkata which has international presence.

The point to be taken is that if you out up a system in place, you are guaranteed to succeed.

Remedy For Your Dream Job

1) Offer Boiled Rice To Crow. If You are jobless, do it everyday. If you have a job but are looking to change or a promotion, do it only on Saturday.

2) As soon as you get up, look at your palms first, then rub them together for a few seconds. This activates a lot of karmic energy for the day.

3) Recite Gayatri Mantra 11 times daily.

" Om Bhur Bhuvaḥ Swaḥ,
Tat-savitur Vareñyaṃ,
Bhargo Devasya Dheemahi
Dhiyo Yonaḥ Prachodayāt "

Difference Between General Remedies & Personalised Remedy

General Remedy - Addresses The General Problems. It may work extremely well for some and might be not as effective for others. Think of it like Paracetamol. Gives your relief but does not cure the disease.

Personalised Remedy - These remedies are done after analyzing your birth details and are extremely effective. These remedies work on the exact problem and finish them completely giving you 10 X results.

How **Personalised Remedy Works?**

Support **Resistance**

Life Is a net sum of support and resistance. Some forces support us and some forces resist or growth. If support is high, you achive great things. If resistance is higher, you get blocked at every step.

Persoalised remedies, increases your support and reduces your resistance so that you can march ahead.

Why Combine Astrology With Numerology & Palmistry?

It Is because all three are interrelated. The are three diffrent parts of a map. When we combine these, a clear picture is formed.

Always remember that never give up. No matter what. No work is big or Small. We all have to begin somewhere.
